PROJECT INTERSECT

Preparing SLP Leaders at the Intersection of Research and Practice in CSD and Special Education to Advance the Next Generation of School SLPs

INTERDISCIPLINARY

Project INTERSECT prepares future PhD-trained speech-language pathology leaders with an emphasis on understanding special education climate, policies, and procedures,

COMPREHENSIVE

Project INTERSECT scholars develop skills related to post-secondary instruction, leadership and research with support for travel, collaboration and high-quality learning experiences embedded in public schools

MULTI-UNIVERSITY

The TCU-VU-SDSU collaboration is uniquely qualified to prepare exemplary SLP Leaders with strong networks and resources. Scholars have opportunities to work across sites to achieve their goals.

UNIQUE

This is the only funded Leadership project designed to meet the urgent need for SLP leaders who can advance speech and language outcomes in linguistically-diverse students with disabilities served in public schools.

Scholars can work with faculty in each institution who engage in school-based research and with linguistically diverse populations

PROJECT FEATURES

Shared coursework

All scholars take special education coursework focused on research and policy

Scholar support

Scholars receive full tuition support and stipends, alongside funding for travel and research

Leadership opportunities

Scholars organize conferences and participate in leadership training

Joint projects

Scholars complete a school-based project with students at another institution
